Career Objective

Computer Science undergraduate passionate about full-stack development. Skilled in building scalable MERN applications with backend APIs, authentication, and responsive UIs. Seeking to contribute strong analytical and coding skills to impactful software solutions.

Education

B.Tech in Computer Science & Engineering

2022–2026

Government College of Engineering, Chandrapur

CGPA: 8.71/10

HSC (12th): 86.67% SSC (10th): 86.80%

Experience

Java Development Intern – CodSoft (Virtual)

Aug 2024

- Developed and debugged **three Java applications**, improving reusability by 25%.
- Collaborated with a remote team of five developers, delivering tasks 20% faster.
- Improved modular code structure, reducing runtime errors by 15%.

Certifications

- **Code Unnati Advanced Course**, Edunet Foundation (ML, IoT, DL, CV, SAP ABAP on BTP).
- **Java Development Internship**, CodSoft.

Projects

Grace Dabeli & Vadapav Centre – MERN Ordering Platform

Aug 2025–Oct 2025

Live: grace-dabeli-centre.vercel.app

- Created a real-time **MERN app** managing 100+ daily food orders.
- Built a responsive **React.js UI** with menus, admin dashboard, and role-based layouts.
- Implemented secure **Express.js API** with **JWT auth** and **MongoDB Atlas**.
- Streamlined ordering workflow, reducing processing time by 30%.

CS Web-Based Quiz Application

Jan 2025–Apr 2025

- Built a full-stack **quiz system** using Node.js, Express.js, MySQL, HTML, CSS, JS.
- Added **leaderboard**, progress tracking and explanations, boosting engagement by 40%.
- Integrated **JWT authentication** with a responsive, mobile-friendly UI.

Skills

Frontend: HTML5, CSS3, JS (ES6+), React.js

Backend: Node.js, Express.js, REST APIs, JWT Auth

Database: MongoDB, MySQL

Programming: Java, Python

Tools: Git, GitHub, Postman, Render, Vercel, VS Code

Extra-Curricular Activities

- Head Coordinator – **Orchestra Band & Singing Competition**, Annual Gathering 2025.
- Lead pianist during college fests, collaborated with a music team of 10+ members.
